IRIS BUTTER DISH  
BROCHURE

# Emotional Object #014: IRIS

Emotional Object #014: Íris is a piece that presents butter in a surprising and sophisticated way because it takes the form of a flower.

In April 2015, this butter dish won the “Golden A’ Design Award” in the “Bakeware, Tableware, Drinkware and Cookware Design” category.

In July 2014, this object was awarded the first prize in the “Decoration Objects” category in POP’s, sponsored by the Serralves Museum of Contemporary Art.

Although being small, Iris was the one who pushed this brand to come forward. We can even say, without Iris, we could not be here.

You can read the story on our website.
